Subject: Inmate Raul Higgins P29949

Prison: California State Prison-San Quentin

Parole Hearing Date: May 30th, 2019 8:30am

**To: State of California—Department of Corrections and Rehabilitation-
Board of Parole Hearings**

Subject: Review to advance Parole Hearing of Raul Higgins,P-29949

**My Name is George L. Clig and I am the brother of Carolyn Marie
Bolger(the victim of Raul Higgin's crime).**

I do not think you should parole this man. I believe he is still a dangerous person and should not be allowed the chance to be released into the public. I believe he did not fully take responsibility for his actions in his first hearing and spent most of that hearing blaming his parents and how he was raised for what he himself did to another human being. This inmate killed my sister when she did not want to have a relationship with him even though he was at the time in a relationship with another woman. This lack of respect for human life is unacceptable in a civilized society and I believe he is dangerous to any woman he may come in contact with outside of the prison. I am concerned especially that if released he may come in contact with female members of my family and cause them harm. Please do not reward this man for his heinous crime against my family and the loss of a wonderful mother of 5 children by letting him out of prison.

This whole process is very frustrating and upsetting for our whole family. How can we heal when we are compelled to write letters, make appearances, dig up painful feelings & memories and basically re-live this crime every few years. How can you be sure that if he is released he would not continue the same behavior and endanger more innocent people. I believe that he has not been rehabilitated no matter how many classes & therapy sessions he has taken inside of prison. We must protect society from dangerous manipulative people with no respect for human life like Raul is and quite possibly will be outside of the prison environment. Please ease our family's pain & heartbreak by not releasing this man from prison.

Sincerely,

George L. Clig.
